SWISS ANAESTHESIA TRAINEES DAY

SATURDAY, NOV. 9, 2024

The Swiss Anaesthesia Trainees Day (SATDay) is the first event at the Swiss Anaesthesia Congress specifically dedicated to and designed for trainees. With the support of the SSAPM, the SAT Committee offers a full program divided into a lecture track by nationally recognized experts from all regions with three sessions («Finding Balance», «Take Deep Breaths», «Tips and Tricks»), three slots of simulation training and three slots of clinical case discussion to better

prepare participants for the oral exam. Each participant can switch between sessions according to their personal interest. Throughout the day, participants will have the opportunity to practice on a TEE simulator and an airway simulator in the foyer.

In order to participate in the simulation training and clinical case discussions, participants must sign up for an available time slot on site.

Programme

09:30	WELCOME
09:40	FINDING BALANCE Haemodynamics and monitoring G. Casso, Lugano POC coagulation tests A. Kaserer, Zürich Obstetric anaesthesia G. Savoldelli, Genève
11:30	LUNCH
13:00	TAKE A DEEP BREATH Swiss difficult airway algorithm P. Schoettker, Lausanne Inside the ventilator G. Albu, Genève Anaesthesia emergencies J. Berger-Estilita, Bern
